Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 31 August 2005.
- 2a) ☒ This action is FINAL. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

DETAILED ACTION

1. This Office Action is responsive to applicant's Remarks/Arguments filed on 08/31/2005.
2. The applicant has cancelled claims 22-24, filed 08/31/2005.

Response to Remarks/Arguments

3. Applicant's remarks/arguments filed 08/31/2005, in response to the Office Action of May 31, 2005, with reference to rejection of claims 1, 14 and 25 under 35 USC 102(e) to Richards and McCorkle, has been fully considered but is not persuasive. The applicant alleges that (in light of the amended claims 1, 14) Richards (1081) does not disclose or teach "a receiver front end downconverter" and "producing ultra wideband downconverted pulses from the transmitter reference ultra wideband communication signal" and further asserts that Richards (in light of the amended claim 25) does not disclose "receiving the transmitted reference ultra wideband communications signals using an antenna" and "down converting the transmitted reference ultra wideband communications signals into downconverted ultra wideband pulses".

The Examiner's response - The examiner contends that the prior arts very clearly disclose amended claim limitations of claims 1, 14 and 25. The examiner respectfully would like to draw applicant's attention to Richards (sections 0184, 0186) clearly disclosing a front end with correlator that converts RF pulse train (waveform representative of the transmitted pulse produced by a ultra-wideband antenna) into a baseband signal (down conversion). Here the

Art Unit: 2637

down conversion is inherently implied within an impulse radio communication transmitter and receiver.

As per applicants assertion, with reference to limitations of claim 25, the examiner again would respectfully would like to draw applicant's attention to fig. 16, element 1502 showing an antenna as a receiving element for communication signals linked directly to RF front end and fig. 8A showing correlator for receiving wideband signals and fig. 18 showing correlator pair (1802, 1804) arrangement to a sampling channel in the impulse radio in fig. 16.

Based on disclosed information by Richards, the examiner firmly believes that Richards clearly addresses the claimed limitations recited in claims 1, 14 and 25. The claim rejection is, therefore, maintained.

Conclusion

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
